

PALLET BOARD STACKER - PBS M4

QUALITIES

- 3 side pneumatic layer alignment
- Stacking options: Straight, straight offset, diagonal offset (optional)
- Complete package setting: the lift is full or by entering the required number of rows

PBS M4 PROVIDES

- The effective unscrambler allows to integrate pallet board stacker straight into board production line;
- 7 sec to elevate to the working height.

TECHNICAL DETAILS

Power	8,6 kW
Pneumatic pressure	4-6 bar
Dimensions	8m x 3,2m x 3m

WORK MATERIAL

Max length	800-1800 mm
Min width	60-150 mm
Max. material thickness	50 mm
Min. material thickness	13 mm
