

AUTOMATIC POINTER FOR WOODEN POSTS FSG-50

QUALITIES

- Automatic wooden post feed unit with separation function
- Fully automated processing
- Automatic feed cut function if material is depleted
- Service positions for easy access to cutting tools
- Wide range of processed materials

WORK MATERIAL(MM)

Length	2200-3000
Diameter	25-50

TECHNICAL CHARACTERISTICS

Total power	10 kW
Number of cycles	15 parts/min
The diameter of the chip extraction pipe(mm)	80 x 1pc, 100 x 1pc

OVERALL DIMENSIONS (MM)

Length	4700
Width	2300
Height	1800
