

MANUAL MILLING MACHINE MSF

QUALITIES

- Durability has been proven over time
- Manual tool feed
- For cross-cutting boards or sawing defects
- For groove milling
- Pneumatic material end stop

WORK MATERIAL(MM)

Width	20-150
Min length	500
Max thickness	40

TECHNICAL CHARACTERISTICS

Saw disk diameter (mm)	250
Saw disk electromotor power	1,5 kW
Saw disk rotation speed	2800 RPM
Milling cutter diameter	180 mm(max 250 mm)
Milling cutter electromotor power	5kW
Milling cutter rotation speed	13 000 RPM
Total power capacity(kW)	6,5
Chip suction pipe diameter(mm)	80 x 2gb

OVERALL DIMENSIONS (MM)

Length	800
Width	900
Height	1350
Working table height	890

ADDITIONAL EQUIPMENT

Roller tables with pneumatic and/or mechanical stoppers
